

The following information is provided by Taylor & Taylor especially for ASMP members. Details of contact information are in the Benefits section on ASMP's Web site.

Laboratory Processing Errors Insurance

One of the best kept secrets of ASMP membership is the ability to purchase Laboratory Processing Errors insurance for your film. The cost of this insurance is \$250 annually for a \$10,000 limit per year. This insurance will cover your re-shoot costs if the film is damaged or destroyed in laboratory processing. Please note, you must actually re-shoot the job to collect under the policy. Furthermore, the policy does not allow for payment if the damage is only to a few images and in fact there are other similar shots. The job must be rendered unusable as a direct result of "Laboratory Processing Errors" or loss to latent image film stock.

The ASMP Prosurance policy only covers the film for fire, theft and water damage. The film coverage specifically excludes loss resulting from laboratory processing errors, camera malfunction or bad film stock. The ASMP Still Photographers Package policy provides coverage for loss resulting from laboratory processing errors, camera malfunction or bad film stock. The ASMP Laboratory Processing Errors policy only covers the single peril of laboratory processing errors.

The policy has an effective date of July 1 – July 1 on the following year and is available to the members in good standing.

THIS HANDOUT IS MERELY A HIGHLIGHT OF THE ASMP LABORATORY PROCESSING ERRORS POLICY. IT IS NOT INTENDED TO REPLACE OR SUPERSEDE ANY OF THE TERMS AND/OR CONDITIONS OF THE POLICY. PLEASE REFER TO THE ACTUAL POLICY FOR AN EXACT DETERMINATION OF COVERAGE AS THE POLICY CONTAINS SPECIFIC EXCLUSIONS NOT OUTLINED IN THIS HANDOUT.

Laboratory Processing Errors Insurance

Application for Coverage

I am a general member of the ASMP and seek to be insured under the ASMP's Laboratory Processing Errors Insurance Policy.

I have enclosed my check for \$250.00 payable to Taylor & Taylor, Ltd.

Signature: _____
